

**RE at Benedict Biscop CE Academy**

*All things are possible*  
*Matthew 19:26*

Year group	RE Unit					
<b>Year 1</b>	<b>Who made the world?</b>	<b>How should we care for the world?</b>	<b>What is the news Jesus brings?</b>	<b>Why does Easter matter?</b>	<b>Who is Jewish and how do they live?</b>	
Global neighbours enquiry question	What is a charity? (look at Christian aid – what do they do and why?)	Whose responsibility is it to care for the world? (Look at ARUK – A Rocha UK charity)	How can I share God’s message with others?	Does God forgive every sin?	What does the Tzedek foundation (or justice foundation) do to support those in poverty? <a href="https://tzedek.org.uk/">https://tzedek.org.uk/</a>	
<b>Year 2</b>	<b>What do Christians believe God is like?</b>	<b>Why does Christmas matter?</b>	<b>Who am I? What does it mean to belong?</b>	<b>Why does Easter matter?</b>	<b>Who is Muslim and what do they believe?</b>	<b>What makes some places sacred to believers?</b>
Global neighbours enquiry question	Does God feel sad when he sees the world today?	What is it like to be a child in Jerusalem today?	What is a refugee?	What happens on World Malaria day? Why is it important?	How and why does Islamic Relief try to change the world? (belief in action unit)	Is God everywhere, even in places where there is nothing else? (Look at churches in Malawi)
<b>Year 3</b>	<b>What are the deeper meanings of festivals?</b>	<b>What kind of world did Jesus want?</b>	<b>What is it like to follow God?</b>	<b>Why do Christians call the day Jesus died, Good Friday?</b>	<b>What does it mean to be a Hindu in Britain today?</b>	
Global neighbours enquiry question	What does Harvest look like in other countries? (Look at New yam festival for the Igbo tribes)	Are we doing what God asked us to do with the world? (Look at work of <a href="https://operationnoah.org/">https://operationnoah.org/</a> )	Why do some people choose to travel to spread God’s word? (Look at work of Mercy ships)	What is it like to be a child in Syria right now?	How do Hindu’s serve others? (Look at work of SEWA UK)	
<b>Year 4</b>	<b>What does it mean to be Muslim in Britain today?</b>		<b>What does it mean to be a Sikh in Britain today?</b>	<b>What is the trinity?</b>	<b>When Jesus left, what next?</b>	<b>How and why do believers show their commitments during the journey of life?</b>
Global neighbours enquiry question	What are the challenges, if any, are there to practicing this religion?		What are the aims of the Share charity and how do they achieve this? <a href="https://sharecharityuk.com/who-we-are/">https://sharecharityuk.com/who-we-are/</a>	Can Christians hear God talking to them? (look at a famous missionary like David Livingstone)	Will I make a difference to the world in my life? (belief in action unit)	Why do some people die before they are old?

<b>Year 5</b>	<b>What kind of king is Jesus?</b>	<b>Was Jesus the Messiah?</b>	<b>What did Jesus do to save human beings?</b>	<b>Why do some people believe in God and some people not?</b>	<b>What does it mean if God is holy and loving?</b>	<b>What does it mean for Muslims to follow God?</b>
Global neighbours enquiry question	Do people who have committed a crime deserve a second chance? (look at work of Prison Fellowship UK)	How might it feel for your faith to be illegal? (Look at Christianity in other parts of the world)	How do non-government organisations help others? (Look at work of tear-fund)	Why is it dangerous for some people to follow God? (look at work of Open doors foundation)	How can normal Christians show love to others? (Look at life of Helen Rosaveare/Mama Luka)	Why is Zakat a key part of Islam? (Look at work of Muslim Hands foundation)
<b>Year 6</b>	<b>Creation and science: Conflicting or complementary?</b>	<b>How do religions help people live through Good times and bad times?</b>	<b>What does it mean for a Jewish person to follow God?</b>	<b>How can following God bring freedom and justice?</b>	<b>What difference does the resurrection make for Christians?</b>	<b>What would Jesus do?</b>
Global neighbours enquiry question	Is climate change a man made phenomenon or is it part of God's world?	Look at work of Brother Andrew (God smuggler) – was he right to do what he did?	Passover is the festival of freedom – are Jewish people free around the world?	How does Fairtrade promote justice?	Is it easy to forgive people who have done us wrong? (Look at work of Jim Elliot and what his wife did after his death)	How do global religious charities use the web? Could they do better? (belief in action unit)

I'm Hello, my name is Oliver from Benedict Biscop CE Academy and your work is inspiring to me and now that I know what you've been through, I want to grow up and follow your footsteps that form our world. Although the people look different, I don't care everyone is equal in so many different ways all I care about is that their saved and they have survived a hard time that changed their life. I am in awe of your amazing, beautiful work and I think but on positive, I think I will work at Mercy Ships because all I want my children to think is my dad changed the world and they can follow my footsteps. All my goal is to live is to change the world starting from now and looking far greater...

**THE - TEN - Commandments**

You shall have no other gods before me.  
 You shall not make yourself an idol.  
 You shall not misuse the name of the Lord your God.  
 Remember the Sabbath day by keeping it holy.  
 Honor your father and your mother.

You shall not murder.  
 You shall not commit adultery.  
 You shall not steal.  
 You shall not give false testimony against your neighbour.  
 You shall not covet your neighbour's possessions.

**NO OTHER GOD**  
**CONVET NEIGHBOORS STUFF**  
**DON'T BE AN IDOL**  
**DON'T MISSUES GODS NAME**  
**REMEMBER SABBATH**

**HONOR YOUR PARENTS**  
**DON'T MURDER**  
**DONT COMMIT ADULTERY**  
**DON'T STEAL**  
**DON'T LIE**

DAVID

THE DECALOGUE

Non-religion

To be non-religious you don't believe in any God. Nor worship any. But that doesn't mean you don't believe in ghosts or dead experiences, mediums and Post lives.

Christianity just because you are non-religious doesn't mean you don't believe in that it's not the end of them. Take me. For ghosts it's our our lives. They believe just someone spirit on when they die they will see.

Some non-religious people also believe in Hell when you see them they choose if you go to heaven or hell. When you die to dying you see a bright light. When you go to hell you see a dark light. People think they see when you go to hell you see a dark light.

Mediums is basically someone who can communicate with spirits.

Post lives is when someone thinks they have been someone else on this earth. When you go to hell you see a bright light. When you go to hell you see a dark light. People think they see when you go to hell you see a dark light.

When you go to heaven you see wings and a Post lives is when someone thinks they have been someone else on this earth. When you go to hell you see a bright light. When you go to hell you see a dark light. People think they see when you go to hell you see a dark light.

Heaven  
 Heaven - a place where God lives with his people. It is a place of culture, love and perfect peace; he [God] will wipe every tear from their eyes. There will be no more death or crying or pain...

Hell  
 Christian believe that hell is a place for bad people. when they have been giving a second chance but did something bad again. People in angels/demons and hell, and post lives.

**What do they have in common?** Both religions believe in angels/demons and hell, and post lives.

Lord, our Lord, how majestic is your name in all the earth!

Explain how one part of your artwork links to the Psalm.

It links to the psalm because it shows God creating the world with his hands because he is majestic.

### My views on creation:

My view on creation is that God created us all to be special and everything on the planet is special no matter what you are even if you are a killer animal or you like to do disgusting things. We all make mistakes that what makes us human or animals (I am trying to be more inclusive by making it everything living on the planet).

### How it differs from others:

My view differs from others because some believe that the world is wonderful although we humans have been corrupting it by making stuff like water pollution and normal pollution. Another way my view differs is that some people think that we haven't just been polluting the earth that we pollute each other because we be horrible to each other and instead of filling each other with happiness they fill people with negative thought.

### Early Christianity

Christianity is a very popular religion, and, it's also the world's largest religion across across the world 7 continents. So many people are christian, all across the world to prove this 31.2% the world population are followers. The followers are all over the world, learning what it's about, such as: teaching people how to pray, learn about christianity and respect God.

### What's the meaning of

Christianity began 2000 years ago Christianity? in middle East in Judea because there were Jesus died and that's when his disciples started to spread his story and ended up all over the world. In AD 313 Christianity spread all many to Emperor constantine as a result Christianity spread throughout Roman Empire then the world, his disciples helped it spread.

### Christianity Churches

The Christian churches were made tall and a little like an oval. Back in the early days they were made out of wood then they started using stone. There is only one church left from the early days which is in England, it survived from the saxon times.

## I.O. To explore the story of Moses

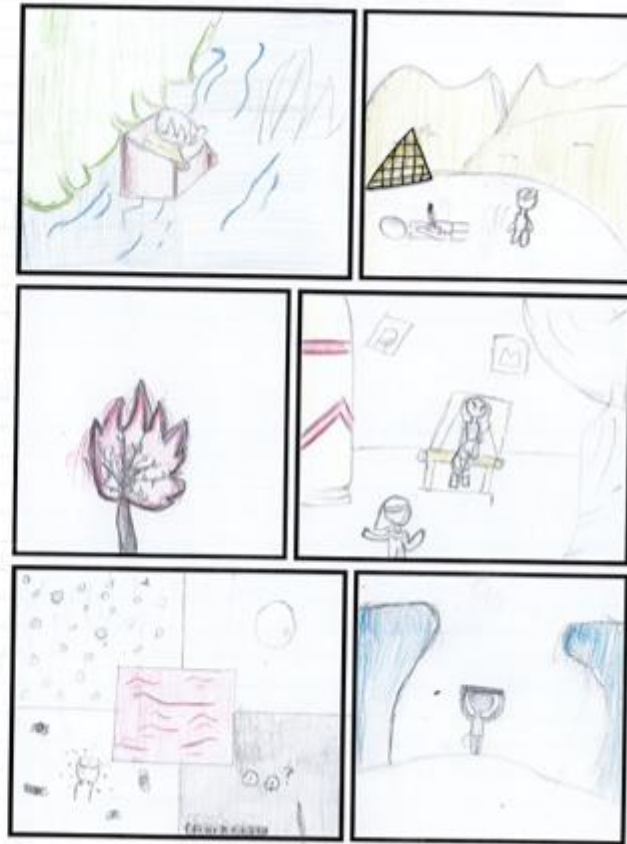

What	
Detail key events in Moses' life	
Understand where the story of Moses fits within the old testament	
Recall some of the ten plagues that occurred in Egypt	
How	
Make links to Moses' experience and their own lives	
Understand the impact of the 10 plagues on Egypt	
Could	
Begin to consider why Moses is still important today in the world today	

Allen Dambler is a good leader because he helps all students practice magic and is very wise.

The worst ones for me would: Insects because I don't like small insects crawling all over me. I would also hate boils because it would be itchy.

They Hebrews left because Pharaoh for Egypt. They became slaves. Moses was a prophet and a leader for the Jews. He told Pharaoh to let the Israelites be free. Pharaoh didn't and made God angry. God sent down 10 plagues.

Why do you think Jewish people look up to Moses? I know that they look up to him because he stopped slavery and saved the Jews.

## I.O. To understand the churches' response to world poverty and the motivation and work of a Christian

CAFOD   
Just one world

C = Catholic  
A = Agency  
F = For  
(O) = Overseas  
D = Development

CAFOD has been fighting poverty in developing countries since 1962. CAFOD raises funds so that it can promote long-term development, respond to emergencies, raise public awareness of the causes of poverty, speak out on behalf of poor communities.

CAFOD challenge those with power to adopt policies that promote justice and end poverty by lobbying, marching and being vocal at key events.

They help the poor by giving them what they need.

What makes them a 'Christian' charity? They believe in the bible and uses Jesus' words.

I.O. 4: Understanding whether there is a link between cosmology and Genesis

Success Criteria	P
Understand other points of view on Creation	
Identify key elements of a text	
Compare and contrast science and religion	

When did it begin in Genesis? it began 14 million years ago? started with the Big Bang expanded faster than the speed of light stars exploded creating new stars and planets

**COSMOLOGY**

According to the Standard Model, the universe began about 13.8 billion years ago. The theory works back in time from our current observations and understanding of the universe. It all started with the Big Bang. This describes the origin of matter, energy, space and time - the early moments of the universe and its subsequent development.

Why there is something rather than nothing is a mystery that our physics cannot answer. One theory is that our universe emerged from a singularity, an infinitely hot and infinitely dense point which is impossible to picture. From this the universe expanded faster than the speed of light. For the first 10<sup>-32</sup> seconds there was only energy. As it expanded and cooled, elementary particles such as quarks and electrons condensed. After one millionth of a second, protons and neutrons formed out of quarks. These minutes later simple atomic nuclei developed. It was 300,000 years before these could capture electrons and form the first atoms. At this time light first filled the whole of space.

As space expanded matter began to pull matter together. When these masses became big enough, galaxies of stars formed. Fusion reactions began, spring stars and forming heavier elements. When stars exploded, the elements scattered. Eventually they condensed to make systems, forming new stars and planets. We see all quite literally made of star stuff.

The Big Bang theory makes more sense of our observations and understanding of physics than than any other. No one claims it's a complete or final story. New discoveries are prompting new ideas such as Dark Matter, Dark Energy and Superstring theories. There is more to learn!

**EVOLUTION**

These 14 billion years seem to be necessary to prepare the way for the evolution of life. We have a clear general outline of the history of life on earth, but there is much work still to do concerning the details.

The origin of life is still not well understood. It needed some very special conditions. Scientists sometimes speak of the Goldilocks Effect. Conditions had to be just right for life to be possible. The Earth seems very special indeed.

About three and a half billion years ago the first self-replicating cells emerged. Somehow they were able to make copies of themselves and survive. There were very simple single cells. Don't be misled by the word simple. They had to be complex enough to function and reproduce.

Sometimes changes took place over time in these first living things. More complex conditions resulted. Much of the detail is unknown, but the mechanisms are beginning to be understood. Key to the evolution of all living things are changes to their genetic code and the natural selection of those creatures best suited to their environment.

- 1,000 million years ago saw the first Cyanobacteria (blue green algae).
- 2,000 million years ago came Eukaryotes (cells with nuclei).
- 1,200 million years ago the first multicellular organisms appeared.
- 600 million years ago saw the start of the Cambrian Explosion, a sharp increase in complex animals.
- From 250 to 65 million years ago dinosaurs were dominant.
- Modern humans appeared about 200,000 years ago.

The Earth had to be just right for life.

humans appeared 200,000 years ago

I believe that Genesis only shows the order that it was created in because it says what he did on each day. However, it doesn't show God's method which is why I believe it is not true.

My view on the science theories is that they only really show how the universe is made. However I believe the evolution is true because it tells you how life is made.

I think there is a link because they all explain different parts. One explains the universe, one explains the earth and the other explains life.

Can you believe both? Explain  
You can believe in both because they all explain different things.

I believe this is the good side because it shows you go when your good

I think this is the bad side, but this is judgement because for the bad people they will never see light again

I think the light shows the good side of you, unless you get another chance to pursue your good

I think the darkness is the bad spirit of you, bad side.

I think this is the opposite trying to take over the bad but it's not working because there are more good people in the world

I think this is the life part, but Jesus isn't punishing the good but the devil is taking over

I think water this side is the bad side but behind the fire it looks like a gate so you need to pass a bit to see if you are bad

This is the good side, the side where you get another chance to be a live but if you're gonna live bad I don't think there you will just fall

How does someone's faith help them in bad times

I think that someone's good faith will help through bad times they could pray and if that happens again they will feel a bit fine

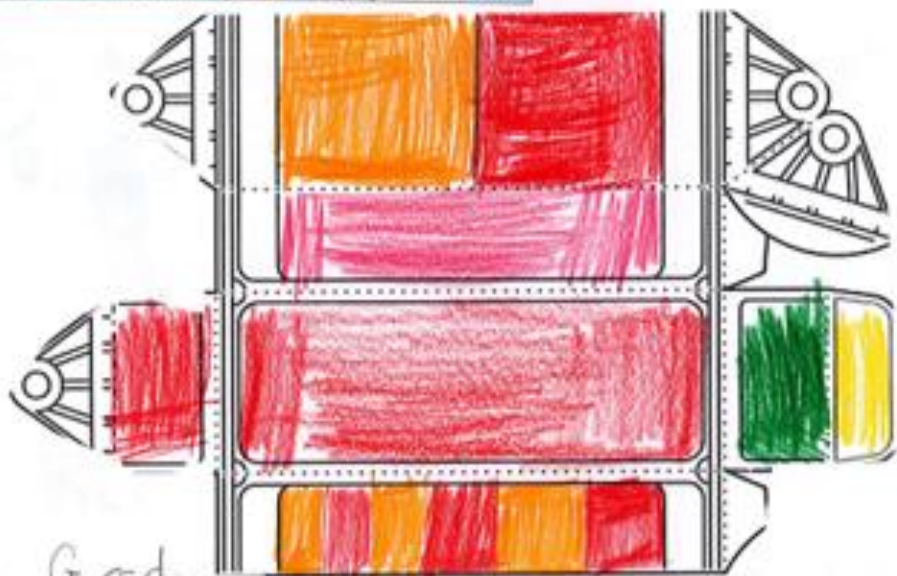

L.O. to recognise the words of the Shema as a Jewish prayer.

Must: I can make my own mezuzah.

Should: I can write a prayer for our classroom.

Could: I can explain the importance of the Shema prayer and mezuzah.

Dear God

Help us to not to  
argue. Thank you for <sup>making</sup>  
my teacher and our school  
because its the best.

Amen:

Why is the Shema prayer important?

I reminds Jewish people of God and  
his care

How were the people feeling? Happy

Jesus went on a donkey  
to Jerusalem <sup>every one</sup>  
was cheering and some  
people were waving palm  
leaves and some people  
put their cloths on  
the floor and palm  
leaves on the floor.
